

NORTHERN REDBUD

Cercis canadensis

Height: 20-30' **Spread:** 20-25'

Location: Zone 4, sun to part shade, needs protected area

Shape: Rounded to vase-shaped

Foliage: Green, brilliant yellow in fall

Notes: This handsome tree bears small pink flowers in spring before leaves appear. Later brown fruit pods form. This strain is grown from seed collected at the Minnesota Landscape Arboretum. It does well in sun and part shade. Selected for hardiness by the University of Minnesota and introduced in 1992.
