

# BALSAM FIR

*Abies balsamea*

**Height:** 45-60'      **Spread:** 20-25'

**Location:** Zone 3, sun to part shade, rich, acidic soil.

**Shape:** Pyramidal, upright

**Foliage:** Shiny, dark green

**Notes:** This native tree is abundant in northern forests and not popular as a yard or street tree, although it is a favorite for Christmas trees, and provides shelter for birds and animals.
