

# WHITE PINE

*Pinus strobus*

**Height:** 50-75'      **Spread:** 25-40'

**Location:** Zone 3, sun, moist, well-drained soil

**Shape:** Dense, pyramidal

**Foliage:** Soft, blue-green needles

**Notes:** Fast growing pine, native to a good part of the Eastern United States. Open to loosely pyramidal as a young tree and becoming gnarled and more irregular with age.
