

CHELONE (TURTLEHEAD)

Location: Zone 3-4, sun to part shade

Shape: Dense, upright clump

Foliage: Dark green

Flowers: Late summer to fall

Notes: Its erect stems end in spikes of white or pink flowers, the shape of which suggests a turtle head. Plants prefer rich, consistently moist soil.

Hot Lips

H: 20-24" W: 24"

Tiny Tortuga

H: 15-18" W: 12-15"

White Turtlehead

H: 24-36" W: 24"
