

SEMPERVIVUM (HENS AND CHICKS)

Location: Zone 3, sun to light shade, drought tolerant, low maintenance

Shape: Mat-like groundcover

Foliage: Green rosettes with deep red centers

Notes: Emerald green leaves with deep red centered heads form open rosettes. In summer, older rosettes send out thick stems topped with clusters of small purple blooms. Rosettes die after flowering; younger rosettes fill in. Adds excellent texture and color to containers and rock gardens.

Ruby Heart

H: 3-4" **W:** 8-10"
