

# UPRIGHT ARBORVITAES

*Thuja occidentalis*

## DEGROOT'S SPIRE

*'Degroot's Spire'*

**Height:** 6-8'      **Spread:** 2-4'

**Location:** Zone 3, sun to part shade

**Shape:** Narrow, pyramidal

**Foliage:** Thick, rich green

**Notes:** This dwarf, slow-growing, ever-green shrub with an upright, pyramidal habit has rich green foliage that takes on a purple cast in winter. Twisted texture on pyramidal form tolerates shearing nicely for a more tailored column. Cold hardy and reliable for matched pairs, or lined up as screen hedge.

## HOLMSTRUP

*'Holmstrup'*

**Height:** 6-10'      **Spread:** 2'

**Location:** Zone 3, sun to light shade.

**Shape:** Upright, narrow, compact.

**Foliage:** Bright green

**Notes:** Neat, formal appearance to densely branched narrow conical evergreen shrub. Effective landscape accent, windbreak or screen. Its rich green foliage covered form can create handsome framework for doorways or garden entries.
