

GENTIANA

Location: Zone 4, sun to part shade

Shape: Upright, clumping, mound

Foliage: Smooth, glossy green, lance-shaped

Flowers: Mid summer to fall

Notes: Gentiana forms an upright mound of shiny green leaves, bearing open funnel-shaped blooms of the most amazing electric-blue shade from midsummer to early autumn. Excellent for cutting, also attractive to butterflies and hummingbirds.

True Blue

H: 22-28" **W:** 12-18"
