

# YUCCA (ADAM'S NEEDLE)

**Location:** Zone 4, sun, well-drained soil, drought tolerant

**Shape:** Upright flower stalks, mounded

**Foliage:** Green

**Flowers:** Summer

**Notes:** Creamy-white conical inflorescences range from 4' to 6' tall, blooming during July and August, and are quite showy when in flower. Either in group plantings or solitary, use at entranceways, borders, rock gardens, island beds, or as a specimen accent.
